Living Tree Time, 1945

Dear Friend:

Perhaps you are wondering why we are not enclosing our wholesale price list of evergreens for Spring, 1945.

Please don't think we have forgotten you this year, or that we don't want to mail you a copy. The reason why you are not receiving a wholesale price list is because we are short of trees, and cannot fill wholesale orders.

For the past two or three years, tree seed has become scarcer. In fact, some varieties of seed are not obtainable at all. In addition to the shortage of seed, the demand for our trees has grown so fast that now we hardly have enough trees to take care of our retail customers.

However, if 50 or 100 trees will help you out, we'll be very glad to have you order from the enclosed retail price list. It will be better to plant a few trees this year than not to plant any even though your planting program called for a large quantity.

We are very happy to have been able to take care of your past requirements, and we look forward with pleasure to the time when we can do so again. We will mail you a wholesale price list just as soon as our inventory of trees warrants.

If you are a customer, I want to say: "Thank you for the pleasant relations we have enjoyed, and also for the business you have given us."

If you are a prospective customer, I want to say: "Thank you for your interest in our trees."

Cordially yours,

T. C. Eastman

Dear Friend:

We have prepared for the use of our customers and friends two short 16 m.m. moving picture films explaining in detail the process of growing, transplanting, and shipping small evergreen trees.

The total length of time required to show these two films is 30 minutes. They are ideal for use as entertainment for service clubs, fish and game clubs, or in fact, any group or organization.

These films are available for your use or the use of any of your friends for either private or public showings. We make no charge for their use.

No advertising whatsoever appears on the films. They show a complete story of the growing of small evergreen trees starting with the planting of the seed.

The films will be mailed to you free of charge if you will ask for them. Be sure to specify a definite date on which you wish to use them and give us, if possible, a few week's advance notice so that we can plan the schedule of the two sets of these films which we have available.

Sincerely yours

T. C. Eastman
